EDUCATION

B.Tech(Electronic And Communication Engineering)

Nov 2022-June 2026

LNCT College of Bhopal

- CGPA :7.45

Class 12th BSEB

2021

MLSM College Darbhanga

- Percentage: 82.6%

Class 10th BSEB

2019

Dayaram High School Bheja

- Percentage : 82%

TECHNICAL SKILLS

- **Programming Languages/Database:** Java, JavaScript, MySQL, MongoDB
- **Web Framework:** HTML, CSS, Bootstrap, Tailwind CSS, ReactJS
- **Tools Technology:** Git, GitHub, Postman, Thunder Client, VS-Code, MongoDBAtlas
- **Concepts:** Data Structures And Algorithms, Object Oriented Programming
- **Soft Skills:** Structured Problem Solving, Great Communication Skills, Leadership Qualities, Quick Learner

CODING PROFILES

- **LeetCode:** [Aryan478_143](#) 250+ problems solved
- **GeeksForGeeks:** [amitaryue2l](#) 100+ problems solved
- **Coding Ninjas:** [akaryan](#) 50+ problems solved

PROJECTS

Clothes shopping App – “Nitam” | Self project | [Github](#)

15 Mar– 15 Apr 2025

- Built a completely functional **clothing e-commerce** website with **ReactJS** (Frontend), **NodeJS & ExpressJS** (Backend), and **MongoDB** (Database).
- Integrated user-friendly features like **product catalog browsing**, **adding products to cart**, and **ordering**, improving overall user interaction.
- Built and implemented a secure **authentication** mechanism using **JWT** and **bcrypt**, **decreasing user login time** by 30%.
- Enhanced overall performance and **UI/UX**, leading to a 40% improvement in daily user interactions.
- Named the project as "Nitam", an **abbreviation for New Innovation in Trends, Aesthetics, and Market**, reflecting an up-to-date, **scalable web shopping platform** composed of a painless **full-stack architecture**.

Book Doctor Appointment App –“Pulse + Meet” | Self project

20 May–10 Aug 2025

- Developed a **responsive appointment booking** form using **HTML**, **CSS**, and **Tailwind CSS**.
- Created interactive **UI** to select **doctors**, **dates**, and **time slots** using **JavaScript**.
- Applied **Tailwind CSS** utility classes for consistent and modern styling.
- Implemented **client-side form validation** for a smooth user experience.
- Used **JavaScript** to **dynamically update available slots** based on selected doctor and date.
- Added loading indicators and success/error messages for better user feedback.

ACHIEVEMENTS

- Solved **400+** coding problems over various coding platforms (May'5)

CERTIFICATIONS

- Basics of **Java**, **DSA**, **MERN Stack Development** Sheryians Coding School

EXTRACURRICULAR ACTIVITIES

- Participated in the **Smart India Hackathon**, working on a team from **LNCT** to develop an **IV Fluid Monitoring System** with a view to addressing real-life problems through technology and innovation.
